Key Objectives

Connect women-led companies with investors, especially in Less Connected Innovation Ecosystems (LCIEs), to address the gap between company needs and available funding, fostering an inclusive, gender-equal ecosystem across European territories.

Provide an in-depth analysis of the financing landscape in LCIEs, including EU funding, and launch an action plan to attract additional resources and improve existing interventions.

Facilitate connections between women-led companies and potential investors through informative guidelines and our digital platform. This platform will attract and connect foreign gender-conscious investors and support the regional development of scale-ups, particularly in less connected European territories. It will also raise awareness of new market potentials and regulatory frameworks.

Create a pan-European community of gender-conscious stakeholders to support women-led companies in LCIEs, engaging with innovation ecosystems to foster inclusivity and gender equality.

Join Us!

Whether you're an entrepreneur, investor, incubator, accelerator or representative of the innovation ecosystem, HerFund offers opportunities to get involved and make a difference.
